PROFESSIONAL SUMMARY

Frontend-focused software developer with 4+ years of professional experience (self-taught since 2020) building production web and mobile applications with React, Next.js, TypeScript and React Native. Lead a team of five at Avane, shipping 4 projects and building 12 in total. Resilient, determined problem-solver who takes ownership of tasks and delivers under tight deadlines. Open to hybrid roles in Lagos and to remote work.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL

Frontend & Mobile: React, Next.js (App Router), React Native (Expo), Redux, React Query, Tailwind CSS, Bootstrap

Backend & Data: Node.js, Express.js, REST APIs, Supabase, Firebase, PostgreSQL, MySQL, Redis

Tools: Git, GitHub, Vercel, Figma, VS Code

PROFESSIONAL EXPERIENCE

Frontend & Mobile Development Team Lead | Avane Mar 2024 – Present

- Lead a team of five developers across web and mobile projects built with React, Next.js and React Native; the team has shipped 4 projects and built 12 in total.
- Turn product requirements into delivery plans, coordinate implementation timelines, and review frontend work to keep UI and code standards consistent.
- Contribute to application architecture, REST API integration, authentication flows and role-based experiences for production products.
- Resolve frontend–backend integration issues across the team's projects.

Frontend Web Developer Intern | Mustard Nerd Technologies Aug 2022 – Apr 2024

- Built responsive application interfaces with Next.js and Tailwind CSS and connected features to backend endpoints.
- Worked with developers to troubleshoot UI and integration issues and get features ready for release.

Help Desk Officer | FZX Smart Campus, University of Calabar Oct 2022 – Feb 2026

- Resolved student portal access problems and investigated data inconsistencies so users could complete time-sensitive academic tasks.

SELECTED PROJECTS

Raiquid – Tokenized Invoice Financing for Nigerian SMEs 2026

Frontend Team Lead | Next.js 16, React 19, TypeScript (strict), Tailwind CSS v4 | Brickken Developer Build Programme

- Led frontend delivery and personally built the landing page and the full business-role area (dashboard, invoices, invoice upload, wallet, settings) within a one-week development and deployment window.
- Set shared conventions for the team: reusable form primitives, a CI type-check step, and a single fee-calculation helper used across pages.

Chop N Go – Food Ordering Marketplace 2025 – Present

Solo full-stack build | Next.js, TypeScript, Supabase

- Designed and built the full application alone: vendor discovery, menus and meal details, cart, order details, and authenticated checkout, plus vendor and admin workflows.
- Modelled and integrated vendor, menu and order data with Supabase.

Homxe – Property-Technology Platform Nov 2022 – Present

Next.js, Supabase, React Native, Redis

- Built the web application (Next.js, Supabase) and the React Native mobile app, with role-based flows for property seekers, owners and vendors.
- Implemented Supabase authentication with server-side session sync, and a Redis-backed likes, comments and views system; live with early users.

Unique Luxury Store – E-commerce Storefront Feb 2025

Next.js, Firebase, Tailwind CSS

- Built a server-rendered storefront with an administrative dashboard for inventory and sales management.

Rhymer Zone – Shopify Storefront Oct 2025

Shopify, GemPages

- Implemented a responsive e-commerce storefront with organised product presentation and page layouts.

EDUCATION

B.Sc. Information Technology | National Open University of Nigeria Expected 2027

Final year (in progress)

CERTIFICATIONS

Backend REST API with Node.js | Udemy Sep 2025

Introduction to Front-End Development | Meta (Coursera) Sep 2023

Advanced Styling with Responsive Design | University of Michigan (Coursera) Sep 2023
